PROFESSIONAL SUMMARY

Innovative Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning, ranked 1st in branch with a CGPA of 9.03. Skilled in Python, Java, C, and full-stack web development, with proven ability to design and deploy scalable applications. Experienced in building data-driven solutions using Flask, Pandas, NumPy, and MySQL, delivering interactive analytics and automation features. Recognized for leadership, mentorship, and translating complex problems into practical, real-world solutions. Seeking opportunities to apply technical expertise to impactful projects in AI, data science, and software engineering.

EDUCATION

B.Tech in Computer Science Engineering (AI & ML)

Dronacharya Group of Institutions, Greater Noida | 2024 – 2028 | CGPA: 9.03

Class XII – CBSE

Platinum Valley International School | 2024 | 95.4% | Computer Science and Physics Topper

Class X – CBSE

Vidya Bharati School | 2022 | 95.8%

TECHNICAL SKILLS

- **Programming:** Wrote optimized solutions in Python, Java, and C for algorithms and real-world applications.
- **Data Science:** Applied Pandas, NumPy, and Matplotlib to analyze datasets and build predictive models.
- **Web Development:** Built responsive full-stack apps using Flask, PHP, Bootstrap, and JavaScript.
- **Databases:** Designed normalized schemas and implemented secure CRUD operations in MySQL and SQLite.
- **Core Competencies:** Strong grasp of data structures, ML algorithms, and statistical analysis.
- **Soft Skills:** Effective communicator, mentor, and team leader with problem-solving mindset.

PROJECTS

Smart Expense Tracker

Tech Stack: Python, Flask, HTML, CSS, SQLite, Matplotlib

- Built a full-stack Flask app to track, categorize, and analyze expenses with interactive dashboards.
- Automated monthly reporting with PDF generation & CSV export, reducing manual effort.
- Delivered a responsive UI with data visualizations using Matplotlib, improving user insights.

Live Demo: smart-expense-tracker-fetv.onrender.com | GitHub: github.com/anay1403/Smart-Expense-Tracker

Waste Management System

Tech Stack: PHP, MySQL, JavaScript, Bootstrap, HTML/CSS

- Developed a responsive web platform to streamline waste collection workflows and reduce inefficiencies.
- Designed dual admin/user modules for real-time tracking, reporting, and disposal management.
- Implemented secure database operations in PHP + MySQL, ensuring reliable data handling.
- Enhanced usability with Bootstrap + JavaScript, improving accessibility across devices.

CERTIFICATIONS

- Programming in Java – NPTEL | ELITE + GOLD Certified | 99% Overall Score | Ranked Among Top 5% Learners
- Python for Data Science – Saylor Academy
- Pandas for Data Analysis in Python – Analytics Vidhya

- Fundamentals of Data Structures in C – Simplilearn
- Python for Beginners – Simplilearn

ACHIEVEMENTS

- Rank 1 in AI & ML Branch – B.Tech 2024–25, Dronacharya Group of Institutions
- Awarded by HFCL under "Tech To Learn and Lead" for voluntarily teaching students during the COVID-19 Pandemic (2023)
- Subject Topper in Computer Science and Physics – Class XII (2023–24)
- State-Level Winner (1st Place) – Anuvrat Moral Song Singing Competition, Uttar Pradesh (2016–17)
- 2nd Place – National-Level Anuvrat Moral Song Singing Competition (Junior Category), New Delhi (2016–17)
